The subscription price of the new shares shall be determined on the basis of the prevailing market price of the Class B shares at the time of the issue.

The same price shall apply for Class A shares and Class B shares.

It was also resolved that the Board of Directors shall be authorized to resolve, on one or several occasions during the period until the close of the next Annual General Meeting, to dispose of all shares held by the company in connection with the acquisition of companies or businesses or parts thereof, in connection with market investments, for hedging costs that may arise relating to the company's incentive programs and for a continuous adaptation of the company's capital structure and thereby contributing to increased shareholders' value. The shareholders shall have a preferential right to acquire the shares in accordance with the provisions in the articles of association regarding the preferential right to subscribe for new shares, provided that the board of directors shall be entitled to deviate from the preferential right if the shares are paid for by way of set-off or non-cash consideration or if the purpose with the disposal is to secure the costs that arise as a result of the company's incentive program. Disposal of shares via Nasdaq Stockholm may only be made at a price within the range of the share prices registered at any given time.

It was noted that

- (i) SEI Acadian EU EX-UK EQ Pool (2,054 shares/votes), and
- (ii) Sveriges Aktiesparares Riksförbund (Swedish Shareholders' Association) (100 shares/votes), representing a total of 2,154 shares/votes voted against the proposal.

§ 17

It was resolved, with the required majority, in accordance with the proposal of the Board of Directors, to issue convertibles, with a nominal value not exceeding SEK 35,000,000. The employees of the Group shall be entitled to subscribe for the convertibles.

The following terms and conditions shall apply to the resolution:

1. Each convertible shall have a nominal value of SEK 1 or multiples thereof.
2. The subscription price for the convertibles shall correspond to the convertibles' nominal value.
3. With disapplication of the shareholders' preferential rights, the Group's employees shall be entitled to subscribe for the convertibles in accordance with **Appendix B**.
4. Subscription shall be made on a subscription list from 1 - 11 October 2018.
5. Payment for the convertibles shall be made in cash not later than 1 November 2018.
6. The convertibles shall not carry any interest and shall mature for payment on 31 January 2022.
7. The convertibles entitle the holder to convert their convertibles to Class B shares. The conversion rate shall correspond to 145.3 per cent of the average volume-weighted average of price paid for the company's shares on Nasdaq Stockholm on each trading day during the period 30 August - 12 September 2018, however not less than SEK 100. Holders are entitled to request conversion of their convertibles into shares, during the period 10 – 14 January 2022.
8. Assuming full conversion of the convertibles, the share capital may increase by not more than SEK 350,000.
9. No excess subscription may take place.
10. The new shares shall yield a right to dividend from the first record day for dividend that occurs after the conversion has taken place.

In addition hereto, the terms and conditions according to **Appendix C** shall apply.

Moreover, it was resolved to authorise the Board of Directors, or any person nominated by the Board of Directors, to undertake such minor adjustments as may be required for the registration of the issue by the Swedish Companies Registration Office and Euroclear Sweden AB.

The basis for the subscription price is that the subscription price shall correspond to the market value of the convertibles in accordance with valuation principles that are generally accepted on the market. The convertibles have been valued by Ernst & Young AB.

The convertibles may only be allocated so that the dilution assuming full conversion amounts to no more than one (1) per cent of the share capital at the date of the Annual General Meeting's resolution, at which the dilution due to the allocation of convertibles to external members of the Board according to the proposal by shareholders shall be included. If it becomes necessary to reduce the allocation of convertibles due to a dilution effect otherwise exceeding one (1) per cent of the share capital, the reduction shall be implemented so that the reduction is proportional to the amount subscribed and with the same proportional reduction in each convertible issue.

Full conversion will have only insignificant effect on the ratios results and equity per share for the financial year 2017/2018. These ratios have therefore been left out.

The proposal has in accordance with guidelines adopted by the Board of Directors been prepared by the management in consultation with external advisors and been covered at board meetings during the spring of 2018.

The purpose of the disapplication of the shareholders' preferential rights is to further strengthen the motivation of the employees regarding the Group's long-term business and financial development and to increase the motivation and the feeling of belonging to the company. The Board of Directors considers it to be advantageous for the company and for the company's shareholders to enable employees to be shareholders in Sectra through this convertible program.

The subscription price for the convertibles is equal to the market value according to an independent valuation. As a result, the Group will not be charged any social fees in connection with the issue of the convertibles. Other costs for this plan as well as the plan for the issue of convertibles to external board members of the Board pursuant to item 18 below, such as fees to external advisors and costs for the administration of the plans, are estimated to be approximately SEK 500,000 during the life of the convertibles.

It was noted that SEI Acadian EU EX-UK EQ Pool, representing 2,054 shares/votes, voted against the proposal.

§ 18

Jan-Olof Brüer, representing himself and other principal shareholders as proposers, explained that they after having consulted with certain institutional owners have decided to amend the proposal to issue convertibles to external board members in such a way that the percentage for determining the conversion price shall be adjusted to 150 per cent.

It was noted that Jan-Olof Brüer in his capacity as member and chairman of the Board of Directors of Sectra waives his right to subscribe for convertibles in the proposed plan.

It was resolved, with the required majority, in accordance with the revised proposal of shareholders, to issue convertibles with a nominal value not exceeding SEK 3,500,000. With disapplication of the shareholders' preferential rights, the external members of the Board of Directors of Sectra may subscribe for the convertibles.

The following terms and conditions shall apply to the resolution:

1. Each convertible shall have a nominal value of SEK 1 or multiples thereof.
2. The issue price for the convertibles shall correspond to the convertibles' nominal value.
3. With disapplication of the shareholders' preferential rights, the company's external members of the Board of Directors shall be entitled to subscribe for the convertibles in accordance with **Appendix D**.
4. Subscription shall be made on a subscription list from 1 – 11 October 2018.
5. Payment for the convertibles shall be made in cash not later than 1 November 2018.
6. The convertibles shall not carry any interest and shall mature for payment on 31 January 2023.
7. The convertibles entitle the holder to convert their convertibles to Class B shares. The conversion rate shall correspond to 150 per cent of the average volume-weighted average of price paid for the company's shares on Nasdaq Stockholm on each trading day during the period 30 August - 12 September 2018, however not less than SEK 100. Holders are entitled to request conversion of their convertibles into shares during the period 9 – 13 January 2023.
8. Assuming full conversion of the convertibles, the share capital may increase by no more than SEK 35,000.
9. No excess subscription may take place.
10. The new shares shall yield a right to dividend from the first record day for dividend which occurs after the conversion has taken place.

In addition hereto, the terms and conditions according to **Appendix E** shall apply.

Moreover, it was resolved to authorise the Board of Directors, or any person nominated by the Board of Directors, to undertake such minor adjustments as may be required for the registration of the issue by the Swedish Companies Registration Office and Euroclear Sweden AB.

The basis for the subscription price is that the subscription price shall correspond to the market value of the convertibles in accordance with valuation principles that are generally accepted on the market. The convertibles have been valued by Ernst & Young AB.

The convertibles may only be allocated so that the dilution assuming full conversion amounts to no more than one (1) per cent of the share capital at the date of the Annual General Meeting's resolution, at which the dilution due to the allocation of convertibles to employees according to the proposal by the Board of Directors shall be included. If it becomes necessary to reduce the allocation of convertibles due to a dilution otherwise exceeding one (1) per cent of the share capital, the reduction shall be implemented so that the reduction is proportional to the amount subscribed and with the same proportional reduction in each convertible issue.

Full conversion will have only insignificant effect on the ratios results and equity per share for the financial year 2017/2018. These ratios have therefore been left out.

The purpose of the disapplication of the shareholders' preferential rights is to further strengthen the motivation of the external members of the Board of Directors regarding the Group's long-term business and financial development.

The subscription price for the convertibles is equal to the market value according to an independent valuation. As a result, the Group will not be charged any social fees in connection with the issue of the convertibles. As explained in item 17 above, other costs for the plan for the issue of convertibles to employees pursuant to item 17 as well as for this plan for the issue of convertibles to external members of the Board, such as fees to external advisors and costs for the administration of the plans, are estimated to be approximately SEK 500,000 during the life of the convertibles.

One new share will be received for each full amount equivalent to the conversion price of the total principal value of this convertible, registered in the applicable account for convertibles, which one and the same holder wishes to convert at the same time. If this amount is not evenly divisible by the conversion price, the surplus amount shall be paid in cash at the date of the final maturity of the loan. The conversion price may be adjusted in the circumstances described below.

Conversion is effected by the new shares being registered in the Company's share register as interim. Any surplus cash amount as specified above shall be paid at the date of the final maturity of the loan. After the registration has been made with the Swedish Companies Registration Office, the registration in the reconciliation account will become final.

§ 7 Dividends in connection with conversion

Shares issued upon conversion carry rights to dividends commencing on the record date for dividends which falls immediately after the day on which conversion is effected.

§ 8 Adjustment of conversion price, etc.

The following shall apply with respect to the rights of holders in the situations described below.

Subsection A. If the Company effects a bonus issue of shares, at a conversion requested on such date that the thereby received share does not carry right to a bonus share, an adjusted conversion price shall be applicable in accordance with the following.

$$A = \frac{B * C}{D}$$

A = adjusted conversion price

B = preceding conversion price

- C = number of shares prior to the bonus issue
- D = number of shares following the bonus issue

The Company has the right to wait with conversion until after the record date for the issue if it facilitates accomplishment of the issue.

Subsection B. If the Company effects a consolidation or a split of its shares, subsection A above shall apply. The date on which the consolidation or split is carried out shall in such case be considered to be on an equal footing with the record date of the bonus issue.

Subsection C. If the Company issues new shares – with preferential rights to its shareholders to subscribe for new shares for cash – an adjusted conversion price shall apply in accordance with the following if conversion is requested on such a date that rights to participate in the new issue do not accrue,

$$A = \frac{B * C}{D}$$

- A = adjusted conversion price
- B = preceding conversion price
- C = the average share price
- D = the average share price increased by the theoretical value of the subscription right

The average price of the share is the average of the mean of the highest and lowest prices paid each trading day in transactions as recorded on Nasdaq Stockholm during the subscription period. In the absence of a quotation of paid price, the last bid price quoted shall be used in the calculation. If neither a paid price nor a bid price is quoted on a given day, that day shall be excluded from calculation of the average share price.

The theoretical value of subscription rights is calculated in accordance with the following formula:

$$A = \frac{B * (C - D)}{E}$$

- A = the theoretical value of the subscription right
- B = maximum number of shares that can be issued according to the resolution approving the new issue
- C = average price of the share
- D = the price at which the shares are being issued

E = number of shares outstanding prior to the resolution whereby new shares are issued

If the subscription right has a negative value, the theoretical value of the subscription rights shall be fixed at zero.

The Company has the right to wait with conversion until after the record date if it facilitates accomplishment of the issue.

The Company likewise has the right to give all holders the same preferential rights that according to the resolution belong to the shareholders. Notwithstanding that conversion has not been carried out holders shall be considered owners of the number of shares that the holder would have received if conversion had been carried out to the conversion price at the date of the resolution to issue new shares. The fact that the holder would have been able to receive a cash sum in accordance with above, shall not result in any right now in question. Adjustment of the conversion price shall not take place if the Company should decide to give the holders preferential right in accordance with these conditions.

Subsection D. If the Company effects an issue as referred to in Chapter 15 of the Swedish Companies Act – with preferential rights for the shareholders to subscribe for convertibles in return for cash payment - an adjusted conversion price shall apply in accordance with the following if conversion is requested on such date that right to participate in the new issue does not accrue,

$$A = \frac{B * C}{D}$$

A = adjusted conversion price

B = preceding conversion price

C = average share price

D = average share price increased by the value of subscription rights

The average share price is calculated as stated in subsection C. above.

The value of the subscription right shall be considered to correspond to the average of the mean of the highest and the lowest prices paid for such rights each trading day in transactions as recorded on Nasdaq Stockholm during the subscription period. In the absence of a quotation of a paid price, the last bid price quoted shall be included in the calculation. If neither a paid price nor a bid price is quoted on a given day, that day shall be excluded from calculation of the value of subscription rights.

The Company has the right to wait with carrying out conversion until after the record date for the issue if it facilitates accomplishment of the issue.

The Company likewise has the right to give all holders the same preferential rights that accrue to the shareholders according to the resolution. In this case every holder shall,

notwithstanding conversion has not been carried out, be considered owner of the number of shares the holder would have received if conversion had been carried out at the existing conversion price at the time of the resolution to issue convertibles. The circumstance that the holder also could have been able to receive a cash sum in accordance with the above mentioned shall not result in any right now at hand. No adjustment of the conversion price shall take place if the Company should resolve to give the holders preferential rights in accordance with those conditions.

Subsection E. Should the Company, in cases other than those set forth in subsections A. through D. above, make an offer to its shareholders to acquire on a preferential basis securities or rights of any type from the Company in accordance with the principles stated in Chapter 13, § 1 of the Swedish Companies Act or decide to distribute, in accordance with the above mentioned principles, such securities or rights to shareholders without consideration, an adjusted conversion price according to below shall be applied in connection with conversions requested at any time such that the received share does not carry rights to participate in the offer or distribution.

$$A = \frac{B * C}{D}$$

- A = adjusted conversion price
- B = preceding conversion price
- C = average share price
- D = average share price increased by the value of rights to participate in the offer or distribution

The average share price is calculated during the specified subscription period in the offer as stated in subsection C. above.

In the event that shareholders receive purchase rights and trading of such rights has occurred, the value of the right to participate in the offer shall be considered to correspond to the average of the mean of the highest and lowest prices paid for such rights each trading day in transactions as recorded on Nasdaq Stockholm during the subscription period. In the absence of a quotation of a paid price, the last price quoted shall be included in the transaction. If neither a paid price nor a bid price is quoted on a given day, that day shall be excluded from the calculation of value of the purchase rights.

In the event that shareholders have not received purchase rights or if such trading in purchase rights as referred to in the preceding paragraph has not occurred, the adjustment of the conversion price shall be calculated by applying as far as possible the principles set forth in subsection E. herein. The following shall thereby apply.

If a listing occurs of the securities or rights offered to the shareholders, the value of the right to participate in the offer shall be considered to correspond to the average of the prices paid for such securities or rights on each trading day during 25 days from and including the first day for listing calculated as the mean of the highest and lowest paid prices recorded for

transactions in these securities or rights on Nasdaq Stockholm, less any consideration that is paid for these in conjunction with the offer. In the absence of a quotation of price, the last bid price quoted shall be used in the calculation. If neither a paid price nor a bid price is quoted on a given day, that day shall be excluded from calculation of the average price. When a recalculation of the conversion price is made according to this paragraph, the above mentioned 25 trading days shall be considered to correspond to the application period in the offer according to the above.

Should listing not occur, the value of the right to participate in the offer shall be determined as far as possible on the change in the market price of the Company's shares that can be considered to have arisen as a consequence of the offer.

The Company has the right to wait with conversion until after the record date for the offer if it facilitates accomplishment of the offer.

The Company likewise has the right to give all holders the same preferential rights, as according to the resolution is granted to the shareholders. In this case every holder, notwithstanding that a conversion has not been carried out, shall be considered owner of the number of shares the holder would have had received if the conversion had been carried out at the existing conversion price at the time of the resolution of the offer. The fact that the holder also could have been able to receive a cash sum according to the above shall not result in any right now at hand. If the Company should resolve to give the holders preferential rights in accordance with those conditions, no adjustment of the conversion price shall be made.

Subsection F. If a cash dividend to shareholders is decided, an adjusted conversion price shall be applied for conversions requested at such time that the shares received in such event do not carry rights to receipt of such dividend. The adjustment shall be based on the amount paid to the shareholders (as dividend and/or as reduction of the share capital with repayment to the shareholders), i.e. on the total dividend and/or repayment. The adjustment shall be made according to the following.

$$A = \frac{B * C}{D}$$

- A = adjusted conversion price
- B = preceding conversion price
- C = average share price
- D = average share price increased by the dividend and/or repayment paid per share

The average price of the share is calculated over a period of 25 trading days starting from and including the day the share is listed without right to dividend and corresponds to the average of the mean of the highest and lowest prices paid each trading day during this period in accordance with the official price list of Nasdaq Stockholm. In the absence of a quotation of a paid price, the last bid price quoted shall be used in the calculation. If neither a

paid price nor a bid price is quoted on a given day, that day shall be excluded from the calculation.

The Company has the right to wait with conversion until after the record date for the dividends if it facilitates accomplishment of the dividend.

Subsection G. Should the Company's share capital be reduced through a repayment to its shareholders, an adjusted conversion price shall be applied for conversions requested at such time that the shares received in such event do not carry rights to receipt of such repayment. The conversion shall be based on the amount with is repaid to the shareholders (as dividend and/or as reduction of the share capital with repayment to the shareholders), i.e. on the aggregate dividend and/or repayment. The adjustment shall be made according to the following.

$$A = \frac{B * C}{D}$$

- A = adjusted conversion price
- B = preceding conversion price
- C = average share price
- D = average share price increased by the dividend and/or the amount being repaid per share

The average share price is calculated under a period of 25 trading days from and including the day the share is listed without right to repayment and corresponds to the average of the mean of the highest and lowest prices paid each trading day during this period in accordance with the official price list of Nasdaq Stockholm. In the absence of a quotation of a paid price, the last bid price quoted shall be used in the calculation. If neither a paid price nor a bid price is quoted on a given day, that day shall be excluded from the calculation.

The Company has the right to wait with conversion until after the resolution of repayment of share capital to shareholders has been registered at the Companies Registration Office, if it facilitates the accomplishment of the resolution of repayment of share capital.

Subsection H. Should the Company take action in accordance with the above and should the application of the conversion formula established for such action with reference to technical design of such action or for any other reason, not be possible, or it would result in the holders receiving, in relation to the shareholders, economic compensation that is not reasonable, the Board of Directors of the Company has the right to make adjustment of the conversion price as the Board of Directors determines appropriate to ensure that the adjustment of the conversion price leads to a reasonable result.

Subsection I. In adjusting the conversion price as described above, the price shall be rounded to units of SEK 0.10, with SEK 0.05 rounded upwards.

Subsection J. If it is decided that the Company is to enter into liquidation pursuant to Chapter 25 of the Swedish Companies Act, conversion may not be requested thereafter, regardless

of the grounds for liquidation; the right to request conversion ceases simultaneously with the decision to liquidate, notwithstanding the fact that the decision may not have come into legal force. However, the holder has the right, in such cases, to demand immediate payment of the principal amount of the convertible. If the decision to liquidate is made at a General Meeting of Shareholders, this right becomes effective on the day following the Meeting or otherwise on the day following the date on which the court order or liquidation has come into legal force. Within a week thereafter, the Company, as provided below, shall notify the holders in writing, advising them of their right to immediate payment.

Not later than two months before the General Meeting of the Shareholders determines whether the Company should enter into voluntary liquidation, as provided in Chapter 25 of the Swedish Companies Act, the holders shall be informed, as provided below, of the planned liquidation. The notice shall include a reminder that conversion may not be requested after the Meeting has voted to liquidate.

If the Company gives notice of a planned liquidation as stated above, holders are – notwithstanding the provisions above regarding the earliest time for requesting conversion – entitled to request conversion from the date when the notice was issued, provided that conversion can be effected not later than the tenth calendar day prior to the General Meeting of Shareholders at which the issue of the Company's liquidation is to be considered.

Subsection K. If the General Meeting of Shareholders shall approve a merger agreement, in accordance with Chapter 23, § 15, of the Swedish Companies Act whereby the Company would be absorbed by another Company, conversion may not thereafter be requested.

However, the holder has the right during a period of two months from the date of such approval to demand immediate payment of the principal amount of the convertible.

The Company shall notify holders, advising them of this right, not later than one week following the beginning of such period. Nothing contained herein shall impair rights that may legally accrue to the holders in their capacity as holders in conjunction with a merger.

Not later than two months prior to the time the Company takes a final decision on the matter of a merger as described above, the holders shall be informed by notice of such merger plans. The notice shall present a report on the principal terms of the planned merger agreement and shall remind the holders that conversion may not be requested once the merger has been fully approved in accordance with that stated in the first paragraph above.

Should the Company give notice of the planned merger as stated above, the holders shall, notwithstanding the provisions regarding the earliest time for requesting conversion, have the right to request conversion from the date when the notice of the merger plans was issued, provided that conversion can be effected not later than the tenth calendar day prior to the General Meeting of Shareholders at which the merger agreement, whereby the Company shall become part of another company, is to be approved.

Subsection L. Should the Board of Directors, in accordance with Chapter 23, § 28 of the Swedish Companies Act, conclude a merger agreement whereby the Company shall be absorbed by the parent company, or the Company's shares become subject to compulsory acquisition pursuant to Chapter 22, § 1 of the same act, the following shall apply.

If a Swedish limited liability stock company owns all shares outstanding in the Company, and the Board of Directors announces its intention of concluding a merger agreement in accordance with the stipulations in the Act cited in the preceding paragraph, the Company shall in the event that the final day for conversion pursuant to the above occurs after such announcement, determine a new closing day, i.e. a new final day for requests for conversion. The closing date shall fall within 60 days from the date of the announcement.

If anyone owns, solely or together with or through subsidiaries, more than ninety (90) per cent of all the shares in the Company (excluding shares in the Company owned by the Company itself) and such majority owner announces its intention to require such compulsory acquisition, the provisions set forth in the preceding paragraph regarding the closing date shall be applied correspondingly.

However, holders have the right during a period of 60 days from the date of such announcement stated above in this subsection to demand immediate payment of the nominal amount of the convertible.

If public notice has been given in accordance with what has been stated above in this Subsection, notwithstanding the provisions of § 6 above with respect to the earliest date to request conversion, the holders shall have the right to request conversion up to and including the closing date. At least four weeks prior to the closing date, the Company shall, by giving notice in accordance with below, notify holders of such right and that conversion may not be requested after the closing date. In addition, the holders shall be notified of their right to request immediate payment in accordance with that stated in the preceding paragraph.

Subsection M. Notwithstanding the provisions above to the effect that conversion may not be requested after a decision is made to liquidate, approval is given for a merger agreement of the expiration of a new closing date upon merger, rights to request conversion shall be reinstated in cases when the liquidation is revoked or the agreement to merge is not implemented.

Subsection N. In the event the Company goes into bankruptcy, conversion may not be requested from that point onwards. If, however, the bankruptcy decision is revoked by a higher court of law, conversion may again be requested.

Subsection O. If the General Meeting would approve a demerger agreement pursuant to Chapter 24 § 17 of the Swedish Companies Act, whereby the Company shall demerge a part of the Company's assets and liabilities acquired by one or several other limited liability companies for a consideration for the shareholders of the Company, a recalculated conversion is applied in accordance with the principles for extraordinary dividend in section G above. The recalculation shall be based on the part of the company's assets or liabilities which will be acquired by the transferor company.

If all the Company's assets and liabilities are acquired by one or several other limited liability companies for a consideration for the shareholders of the Company, the liquidation rules in section M above shall be applicable, meaning *inter alia* that the right to demand subscription expires at the same time as the registration pursuant to Chapter 24 § 27 of the Swedish Companies Act. The holder is therefore to be notified at the latest four weeks before the

demerger plan is submitted to the General Meeting.

§ 9 Special undertaking by the Company

The Company agrees not to undertake any measure that would result in an adjustment of the conversion price to an amount less than the quota of each share in the Company.

§ 10 Statute of limitations

All rights to payment of principal shall cease ten years after the maturity date of the convertibles. Funds allocated for payments for which rights cease to exist accrue to the Company.

§ 11 Notification

Notices concerning this loan shall be given to a holder, whose address is known to the Company.

§ 12 Confidentiality

Unless so authorized, the Company, the Bank or Euroclear may not provide information on holders to third parties. The Company has the right to obtain information on holders from the debt register kept by Euroclear.

§ 13 Limitation of liability

The reservations with respect to strikes, blockades, boycotts and lockouts apply even if Euroclear, the Bank or the Company itself undertakes, or is the object of, such actions. Neither Euroclear, the Bank nor the Company shall be obligated to provide compensation for loss arising in other situations if Euroclear, the Bank or the Company respectively has exercised normal prudence and are not in any case liable for indirect damages.

If a payment or any other action is stopped by circumstances such as those described in the first paragraph, such action may be deferred until the hindrance has ceased to exist.

§ 14 Governing law, etc.

These terms and conditions and any legal matters relating to the convertibles shall be governed by Swedish law. Any legal proceedings relating to the convertibles shall be instituted in the District Court of Linköping (Sw: *Linköpings tingsrätt*).

Board members with the right to subscribe and guidelines for allotment by the Board of Directors

The convertibles shall, with disapplication of the shareholders' preferential rights, be subscribed for by members of the Board of Directors in Sectra AB (publ) who are not at the same time employed within the Sectra Group. At allotment each member of the Board shall be allotted convertibles at a nominal value in total of no more than 25,000 times the conversion rate, which shall be calculated according to item 7 in the proposal from the shareholders. If the new issue is not subscribed in full, each Board member shall be allotted additional convertibles at a nominal value of a total of no more than 15,000 times the calculated conversion rate.

The Company undertakes, for such time as any creditors hold convertibles pursuant to these terms and conditions, not to assume subordinated obligations which, in the event of the Company's liquidation or insolvent liquidation, shall entitle such creditors to payment from the Company's assets prior to payment pursuant this subordinated loan.

§ 5 Repayment of principal amount

The principal amount will be paid by Euroclear to parties who, on the fifth banking day prior to the due date for payment or on the banking day more close to the due date for payment that may generally be applied on the Swedish securities market (the record date for payment) is registered in an account in the Company's Euroclear register as the holder or as otherwise entitled to receive payment of the principal amount.

If the holder, or a person who is registered in an account in the Company's Euroclear register as otherwise entitled to receive payment of the principal amount, has via an account-operating institute registered that the payment of the principal amount should be deposited in a specified bank account, such deposit will be made by Euroclear on the due date for payment. In the absence of such agreement, Euroclear will transmit the payment of the principal amount on that date to the address of the appropriate party as recorded at Euroclear on the record date for payment. If the due date for payment is a day that is not a banking day, the payment will not be deposited or transmitted until the immediately following banking day.

If Euroclear, due to delay on the part of the Company or to other hindrance, is unable to make the principal amount payment when due, the payment will be made by Euroclear as soon as such hindrance has been removed to the party who, on the record date for payment, was registered as the holder or listed as entitled to receive payment of the principal amount.

In the event that the Company shall fail to make funds available to Euroclear in time for payment of the principal amount on the relevant due date for payment, although there is not any hindrance in the liability of the bank or Euroclear as stated below, interest shall be payable pursuant to § 5 of the Swedish Interest Act (Sw. *räntelagen*, 1975:635) from the due

date for payment, up to and including the banking day upon which, no later than 10:00 a.m., funds have been made available to Euroclear.

§ 6 Conversion

Holders shall have the right, during the period January 9–13, 2023, to request conversion of their convertibles into shares. The conversion price shall correspond to 150 percent of the volume-weighted average of price paid for the company's shares on Nasdaq Stockholm during the period August 30–September 12, 2018, however not less than SEK 100. Request for conversion shall be made to the company on a registration form specified by the company or to the one that the company provides on an established registration form.

One new share will be received for each full amount equivalent to the conversion price of the total principal value of this convertible, registered in the applicable account for convertibles, which one and the same holder wishes to convert at the same time. If this amount is not evenly divisible by the conversion price, the surplus amount shall be paid in cash at the date of the final maturity of the loan. The conversion price may be adjusted in the circumstances described below.

Conversion is effected by the new shares being registered in the Company's share register as interim. Any surplus cash amount as specified above shall at the date of the final maturity of the loan be paid. After the registration has been made with the Swedish Companies Registration Office, the registration in the reconciliation account will become final.

§ 7 Dividends in connection with conversion

Shares issued upon conversion carry rights to dividends commencing on the record date for dividends which falls immediately after the day on which conversion is effected.

§ 8 Adjustment of conversion price, etc.

The following shall apply with respect to the rights of holders in the situations described below.

Subsection A. If the Company effects a bonus issue of shares, at a conversion requested on such date that the thereby received share does not carry right to a bonus share, an adjusted conversion price shall be applicable in accordance with the following.

$$A = \frac{B * C}{D}$$

- A = adjusted conversion price
- B = preceding conversion price
- C = number of shares prior to the bonus issue
- D = number of shares following the bonus issue

The Company has the right to wait with conversion until after the record date for the issue if it facilitates accomplishment of the issue.

Subsection B. If the Company effects a consolidation or a split of its shares, subsection A above shall apply. The date on which the consolidation or split is carried out with Euroclear shall in such case be considered to be on an equal footing with the record date of the bonus issue.

Subsection C. If the Company issues new shares – with preferential rights to its shareholders to subscribe for new shares for cash – an adjusted conversion price shall apply in accordance with the following if conversion is requested on such a date that rights to participate in the new issue do not accrue,

$$A = \frac{B * C}{D}$$

- A = adjusted conversion price
- B = preceding conversion price
- C = the average share price
- D = the average share price increased by the theoretical value of the subscription right

The average price of the share is the average of the mean of the highest and lowest prices paid each trading day in transactions as recorded on Nasdaq Stockholm during the subscription period. In the absence of a quotation of paid price, the last bid price quoted shall be used in the calculation. If neither a paid price nor a bid price is quoted on a given day, that day shall be excluded from calculation of the average share price.

The theoretical value of subscription rights is calculated in accordance with the following formula:

$$A = \frac{B * (C - D)}{E}$$

- A = the theoretical value of the subscription right
- B = maximum number of shares that can be issued according to the resolution approving the new issue
- C = average price of the share
- D = the price at which the shares are being issued
- E = number of shares outstanding prior to the resolution whereby new shares are issued

If the subscription right has a negative value, the theoretical value of the subscription rights shall be fixed at zero.

The Company has the right to wait with conversion until after the record date if it facilitates accomplishment of the issue.

The Company likewise has the right to give all holders the same preferential rights that according to the resolution belong to the shareholders. Notwithstanding that conversion has not been carried out holders shall be considered owners of the number of shares that the holder would have received if conversion had been carried out to the conversion price at the date of the resolution to issue new shares. The fact that the holder would have been able to receive a cash sum in accordance with above, shall not result in any right now in question. Adjustment of the conversion price shall not take place if the Company should decide to give the holders preferential right in accordance with these conditions.

Subsection D. If the Company effects an issue as referred to in Chapter 15 of the Swedish Companies Act – with preferential rights for the shareholders to subscribe for convertibles in return for cash payment - an adjusted conversion price shall apply in accordance with the following if conversion is requested on such a such date that right to participate in the new issue does not accrue,

$$A = \frac{B * C}{D}$$

- A = adjusted conversion price
- B = preceding conversion price
- C = average share price
- D = average share price increased by the value of subscription rights

The average share price is calculated as stated in subsection C. above.

The value of the subscription right shall be considered to correspond to the average of the mean of the highest and the lowest prices paid for such rights each trading day in transactions as recorded on Nasdaq Stockholm during the subscription period. In the absence of a quotation of a paid price, the last bid price quoted shall be included in the calculation. If neither a paid price nor a bid price is quoted on a given day, that day shall be excluded from calculation of the value of subscription rights.

The Company has the right to wait with carrying out conversion until after the record date for the issue if it facilitates accomplishment of the issue.

The Company likewise has the right to give all holders the same preferential rights that accrue to the shareholders according to the resolution. In this case every holder shall, notwithstanding conversion has not been carried out, be considered owner of the number of shares the holder would have received if conversion had been carried out at the existing conversion price at the time of the resolution to issue convertibles. The circumstance that the holder also could have been able to receive a cash sum in accordance with the above mentioned shall not result in any right now at hand. No adjustment of the conversion price shall take place if the Company should resolve to give the holders preferential rights in accordance with those conditions.

Subsection E. Should the Company, in cases other than those set forth in subsections A. through D. above, make an offer to its shareholders to acquire on a preferential basis securities or rights of any type from the Company in accordance with the principles stated in Chapter 13, § 1 of the Swedish Companies Act or decide to distribute, in accordance with the

above mentioned principles, such securities or rights to shareholders without consideration, an adjusted conversion price according to below shall be applied in connection with conversions requested at any time such that the received share does not carry rights to participate in the offer or distribution.

$$A = \frac{B * C}{D}$$

- A = adjusted conversion price
- B = preceding conversion price
- C = average share price
- D = average share price increased by the value of rights to participate in the offer or distribution

The average share price is calculated during the specified subscription period in the offer as stated in subsection C. above.

In the event that shareholders receive purchase rights and trading of such rights has occurred, the value of the right to participate in the offer shall be considered to correspond to the average of the mean of the highest and lowest prices paid for such rights each trading day in transactions as recorded on Nasdaq Stockholm during the subscription period. In the absence of a quotation of a paid price, the last price quoted shall be included in the transaction. If neither a paid price nor a bid price is quoted on a given day, that day shall be excluded from the calculation of value of the purchase rights.

In the event that shareholders have not received purchase rights or if such trading in purchase rights as referred to in the preceding paragraph has not occurred, the adjustment of the conversion price shall be calculated by applying as far as possible the principles set forth in subsection E. herein. The following shall thereby apply.

If a listing occurs of the securities or rights offered to the shareholders, the value of the right to participate in the offer shall be considered to correspond to the average of the prices paid for such securities or rights on each trading day during 25 days from and including the first day for listing calculated as the mean of the highest and lowest paid prices recorded for transactions in these securities or rights on Nasdaq Stockholm, less any consideration that is paid for these in conjunction with the offer. In the absence of a quotation of price, the last bid price quoted shall be used in the calculation. If neither a paid price nor a bid price is quoted on a given day, that day shall be excluded from calculation of the average price. When a recalculation of the conversion price is made according to this paragraph, the above mentioned 25 trading days shall be considered to correspond to the application period in the offer according to the above.

Should listing not occur, the value of the right to participate in the offer shall be determined as far as possible on the change in the market price of the Company's shares that can be considered to have arisen as a consequence of the offer.

The Company has the right to wait with conversion until after the record date for the offer if it facilitates accomplishment of the offer.

The Company likewise has the right to give all holders the same preferential rights, as according to the resolution is granted to the shareholders. In this case every holder, notwithstanding that a conversion has not been carried out, shall be considered owner of the number of shares the holder would have had received if the conversion had been carried out at the existing conversion price at the time of the resolution of the offer. The fact that the holder also could have been able to receive a cash sum according to the above shall not result in any right now at hand. If the Company should resolve to give the holders preferential rights in accordance with those conditions, no adjustment of the conversion price shall be made.

Subsection F. If a cash dividend to shareholders is decided, an adjusted conversion price shall be applied for conversions requested at such time that the shares received in such event do not carry rights to receipt of such dividend. The adjustment shall be based on the amount paid to the shareholders (as dividend and/or as reduction of the share capital with repayment to the shareholders), i.e. on the total dividend and/or repayment. The adjustment shall be made according to the following.

$$A = \frac{B * C}{D}$$

- A = adjusted conversion price
- B = preceding conversion price
- C = average share price
- D = average share price increased by the dividend and/or repayment paid per share

The average price of the share is calculated over a period of 25 trading days starting from and including the day the share is listed without rights to dividends and corresponds to the average of the mean of the highest and lowest prices paid each trading day during this period in accordance with the official price list of Nasdaq Stockholm. In the absence of a quotation of a paid price, the last bid price quoted shall be used in the calculation. If neither a paid price nor a bid price is quoted on a given day, that day shall be excluded from the calculation.

The Company has the right to wait with conversion until after the record date for the dividends if it facilitates accomplishment of the dividend.

Subsection G. Should the Company's share capital be reduced through a repayment to its shareholders, an adjusted conversion price shall be applied for conversions requested at such time that the shares received in such event do not carry rights to receipt of such repayment. The conversion shall be based on the amount which is repaid to the shareholders (as dividend and/or as reduction of the share capital with repayment to the shareholders), i.e. on the aggregated dividends and/or repayment. The adjustment shall be made according to the following.

$$A = \frac{B * C}{D}$$

- A = adjusted conversion price
- B = preceding conversion price
- C = average share price
- D = average share price increased by the dividend and/or the amount being repaid per share

The average share price is calculated under a period of 25 trading days from and including the day the share is listed without right to repayment and corresponds to the average of the mean of the highest and lowest prices paid each trading day during this period in accordance with the official price list of Nasdaq Stockholm. In the absence of a quotation of a paid price, the last bid price quoted shall be used in the calculation. If neither a paid price nor a bid price is quoted on a given day, that day shall be excluded from the calculation.

The Company has the right to wait with conversion until after the resolution of repayment of share capital to shareholders has been registered at the Companies Registration Office, if it facilitates the accomplishment of the resolution of repayment of share capital.

Subsection H. Should the Company take action in accordance with the above and should the application of the conversion formula established for such action with reference to technical design of such action or for any other reason, not be possible, or it would result in the holders receiving, in relation to the shareholders, economic compensation that is not reasonable, the Board of Directors of the Company has the right to make adjustment of the conversion price as the Board of Directors determines appropriate to ensure that the adjustment of the conversion price leads to a reasonable result.

Subsection I. In adjusting the conversion price as described above, the price shall be rounded to units of SEK 0.10, with SEK 0.05 rounded upwards.

Subsection J. If it is decided that the Company is to enter into liquidation pursuant to Chapter 25 of the Swedish Companies Act, conversion may not be requested thereafter, regardless of the grounds for liquidation; the right to request conversion ceases simultaneously with the decision to liquidate, notwithstanding the fact that the decision may not have come into legal force. However, the holder has the right, in such cases, to demand immediate payment of the principal amount of the convertible. If the decision to liquidate is made at a General Meeting of Shareholders, this right becomes effective on the day following the Meeting or otherwise on the day following the date on which the court order or liquidation has come into legal force. Within a week thereafter, the Company, as provided below, shall notify the holders in writing, advising them of their right to immediate payment.

Not later than two months before the General Meeting of the Shareholders determines whether the Company should enter into voluntary liquidation, as provided in Chapter 25 of the Swedish Companies Act, the holders shall be informed, as provided below, of the planned liquidation. The notice shall include a reminder that conversion may not be requested after the Meeting has voted to liquidate.

If the Company gives notice of a planned liquidation as stated above, holders are – notwithstanding the provisions above regarding the earliest time for requesting conversion – entitled to request conversion from the date when the notice was issued, provided that

conversion can be effected not later than the tenth calendar day prior to the General Meeting of Shareholders at which the issue of the Company's liquidation is to be considered.

Subsection K. If the General Meeting of Shareholders shall approve a merger agreement, in accordance with Chapter 23, § 15, of the Swedish Companies Act whereby the Company would be absorbed by another Company, conversion may not thereafter be requested.

However, the holder has the right during a period of two months from the date of such approval to demand immediate payment of the principal amount of the convertible.

The Company shall notify holders, advising them of this right, not later than one week following the beginning of such period. Nothing contained herein shall impair rights that may legally accrue to the holders in their capacity as holders in conjunction with a merger.

Not later than two months prior to the time the Company takes a final decision on the matter of a merger as described above, the holders shall be informed by notice of such merger plans. The notice shall present a report on the principal terms of the planned merger agreement and shall remind the holders that conversion may not be requested once the merger has been fully approved in accordance with that stated in the first paragraph above.

Should the Company give notice of the planned merger as stated above, the holders shall, notwithstanding the provisions regarding the earliest time for requesting conversion, have the right to request conversion from the date when the notice of the merger plans was issued, provided that conversion can be effected not later than the tenth calendar day prior to the General Meeting of Shareholders at which the merger agreement, whereby the Company shall become part of another company, is to be approved.

Subsection L. Should the Board of Directors, in accordance with Chapter 23, § 28 of the Swedish Companies Act, conclude a merger agreement whereby the Company shall be absorbed by the parent company, or the Company's shares become subject to compulsory acquisition pursuant to Chapter 22, § 1 of the same act, the following shall apply.

If a Swedish limited liability stock company owns all shares outstanding in the Company, and the Board of Directors announces its intention of concluding a merger agreement in accordance with the stipulations in the Act cited in the preceding paragraph, the Company shall in the event that the final day for conversion pursuant to the above occurs after such announcement, determine a new closing day, i.e. a new final day for requests for conversion. The closing date shall fall within 60 days from the date of the announcement.

If anyone owns, solely or together with or through subsidiaries, more than ninety (90) per cent of all the shares in the Company (excluding shares in the Company owned by the Company itself) and such majority owner announces its intention to require such compulsory acquisition, the provisions set forth in the preceding paragraph regarding the closing date shall be applied correspondingly.

However, holders have the right during a period of 60 days from the date of such announcement stated above in this subsection to demand immediate payment of the nominal amount of the convertibles.

If public notice has been given in accordance with what has been stated above in this Subsection, notwithstanding the provisions of § 6 above with respect to the earliest date to request conversion, the holders shall have the right to request conversion up to and including the closing date. At least four weeks prior to the closing date, the Company shall,

by giving notice in accordance with below, notify holders of such right and that conversion may not be requested after the closing date. In addition, the holders shall be notified of their right to request immediate payment in accordance with that stated in the preceding paragraph.

Subsection M. Notwithstanding the provisions above to the effect that conversion may not be requested after a decision is made to liquidate, approval is given for a merger agreement of the expiration of a new closing date upon merger, rights to request conversion shall be reinstated in cases when the liquidation is revoked or the agreement to merge is not implemented.

Subsection N. In the event the Company goes into bankruptcy, conversion may not be requested from that point onwards. If, however, the bankruptcy decision is revoked by a higher court of law, conversion may again be requested.

Subsection O. If the General Meeting would approve a demerger agreement pursuant to Chapter 24 § 17 of the Swedish Companies Act, whereby the Company shall demerge a part of the Company's assets and liabilities acquired by one or several other limited liability companies for a consideration for the shareholders of the Company, a recalculated conversion is applied in accordance with the principles for extraordinary dividend in section G above. The recalculation shall be based on the part of the company's assets or liabilities which will be acquired by the transferor company.

If all the Company's assets and liabilities are acquired by one or several other limited liability companies for a consideration for the shareholders of the Company, the liquidation rules in section M above shall be applicable, meaning *inter alia* that the right to demand subscription expires at the same time as the registration pursuant to Chapter 24 § 27 of the Swedish Companies Act. The holder is therefore to be notified at the latest four weeks before the demerger plan is submitted to the General Meeting.

§ 9 Special undertaking by the Company

The Company agrees not to undertake any measure that would result in an adjustment of the conversion price to an amount less than the quota of each share in the Company.

§ 10 Statute of limitations

All rights to payment of principal shall cease ten years after the maturity date of the convertibles. Funds allocated for payments for which rights cease to exist accrue to the Company.

§ 11 Notification

Notices concerning this loan shall be given to a holder, whose address is known to the Company.

§ 12 Confidentiality

Unless so authorized, the Company, the Bank or Euroclear may not provide information on holders to third parties. The Company has the right to obtain information on holders from the debt register kept by Euroclear.

§ 13 Limitation of liability

With respect to the actions incumbent on Euroclear, the Bank or the Company - Euroclear, the Bank or the Company shall not be deemed liable for loss due to Swedish or foreign legal decrees, Swedish or foreign action by public authorities, acts of war, strikes, blockades, boycotts, lockouts or other similar causes. The reservations with respect to strikes, blockades, boycotts and lockouts apply even if Euroclear, the Bank or the Company itself undertakes, or is the object of, such actions. Neither Euroclear, the Bank nor the Company shall be obligated to provide compensation for loss arising in other situations if Euroclear, the Bank or the Company respectively has exercised normal prudence and are not in any case liable for indirect damages.

If a payment or any other action is stopped by circumstances such as those described in the first paragraph, such action may be deferred until the hindrance has ceased to exist.

§ 14 Governing law, etc.

These terms and conditions and any legal matters relating to the convertibles shall be governed by Swedish law. Any legal proceedings relating to the convertibles shall be instituted in the District Court of Linköping (Sw. *Linköpings tingsrätt*).
